JUDSON NURSERIES

BRISTOL, INDIANA ♦ TELEPHONE THornwall 1-2945

Dear Friends:

I wish that I could personally thank all of our customers for the business they favored us with last year. Since that is not possible, I thought it would be interesting to tell you, in this brief note, about some of our plans for 1960 . . . plans that can mean added profit for you.

We are now planning the expansion of our present facilities which will double our working and cold storage space. This will mean better handling and efficiency in processing our large, bulk Strawberry plant orders. The construction last year of two new polyethylene greenhouses was an immense help in our Perennial expansion. As a result, pages 6 to 9 in this catalog reflect a greatly increased listing on Perennials.

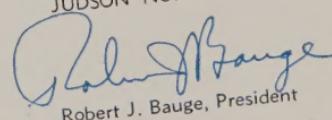

In tune with our recognized leadership in the packaging field, we are introducing a complete line of packaged house plants that should make a tremendously popular Fall and Winter item. Be sure to turn to page 13 . . . Plantin' Time house plants. Test these packages this fall and find a place for them in your merchandising program.

Something else is new too! Jud-Pak Perennials will be all dressed up in a brand new package. This is the popular carton type of package we developed for easy counter display. The new Jud-Pak Perennial package is shown on page 10.

Again . . . Best Wishes for a great year in 1960! Please let us hear from you soon if we can help you in any way.

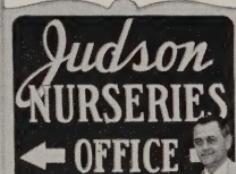

Sincerely,

JUDSON NURSERIES, Inc.

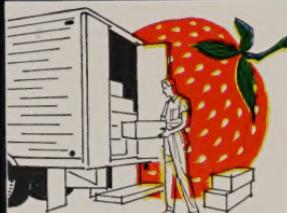

Robert J. Bauge

Robert J. Bauge, President

BULK SHIPMENT

strawberry plants

If you have your own cold storage facilities and can use plants in 1000 lots the bulk price list shown here will interest you. If you sell strawberry plants in quantities of 25,000 and over please write for quotation. We have the stock and facilities for processing your bulk strawberry plant orders promptly and efficiently.

PLANT RESERVATIONS

It will be especially helpful to us and to yourself in handling your bulk strawberry plant requirements if you will send us a reservation order (based on last year's sales) well ahead of the shipping season. This reservation order can, of course, be adjusted upwards or down, but when we receive it we will set aside and hold the plants you have reserved.

*These plants are produced from planting stock which is substantially virus-free.

Generally speaking virus-free plants mean greater production and that is why Judson Nurseries have cooperated in the development of a virus-free program. Indexed virus-free plants are grown in our own screen house to increase our planting stock. These plants are then planted in isolated fields that have been fumigated and have at least fifteen hundred feet isolation. These fields supply our second generation plants for commercial planting.

All strawberry plants grown by Judson Nurseries are produced on fumigated soil to control nematode.

DROP SHIPMENT

strawberry plants

Drop shipment of Strawberry plants simply means that you list and sell the plants and we do the rest. Make a selection of the varieties you wish to sell and we will ship your individual orders direct to your customers for you. Under your label, too.

HERE'S HOW IT WORKS

We have order-shipping tags for Strawberry plants, Perennials and Pyramid Gardens. Tags are supplied at no charge. Over 1000 we imprint tag with your name. Less than 1000 use your own stamp. Tags carry inspection certificate and fill-in space for quantity, variety, customer's name and address. After shipment we return the stub to you with your invoice as proof of shipment. Estimate your tag needs now.

PERENNIALS

Write for our complete Perennial drop-shipment listing. We feature special collections and will handle your orders and ship direct to your customers under your label.

JUD-PAK PERENNIALS

For years Jud-Pak has been a popular name in packaged Perennials. Now it's all dressed up in a bright new carton for greater sales. This new package will stand up on counter or shelf and really get attention. Label is in full color for the plant variety it contains. Has planting instructions. Normally, we package dormant plants in Jud-Pak containers because of their longer shelf life. The plant is so packaged that at room temperatures it may begin to grow and thus enhance its packaged appearance.

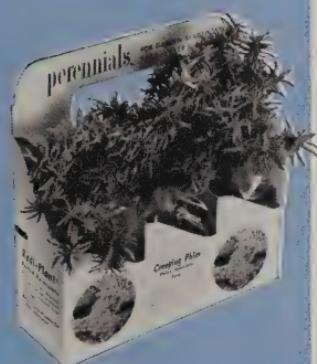

Variety	Description
Aster	Blue, Red, White
Baby's Breath	Double white
Canterbury Bells	Blue, Pink, White
Carnations	Pink, Red, White, Yellow
Chrysanthemum, Cushion	Bronze, Pink, Red, White, Yellow

PYRAMID®

CORRUGATED ALUMINUM COMPLETE SPRINKLER INCLUDED

This is the brand new, re-designed Judson Pyramid Terraced Garden. SIX FEET in diameter with three planting terraces. The 5-inch aluminum bands are now attractively corrugated and the completely new sprinkler is included as standard equipment with no increase in price. Remember, the sprinkler is no longer an accessory but is packaged in the Pyramid Terraced Garden box and includes the sprinkler head, tubing and hose connection. New literature not only has instructions, but does an excellent sales job on new accessories.

WHOLESALE PRICE LIST

(Note: If you wish Pyramid Terraced Gardens shipped to you in unit lots of 6 or more use the F.O.B. Bristol, Indiana price list. If you want us to drop-ship unit Pyramid Terraced Gardens direct to your customers use the Postpaid price list.)

NEW PYRAMID[®] ACCESSORIES

for added sales appeal

SUPPORT FRAME

We have entirely re-designed this new support frame. Separately packaged—made of green plastic covered steel wire to form a perfect hemisphere over the Pyramid Terraced Garden. Frame is required for both netting and plastic cover.

NETTING

This newly designed net is made for us by people who manufacture marine netting. Net is suspended over support frame and hooks under bottom terrace. Protects Pyramid Terraced Garden from birds, also holds mulch for winter protection.

PLASTIC COVER

Completely new plastic cover designed for new frame. Can be used in two ways: 1. For early planting and frost protection of Strawberry plants. 2. Can be used as a hotbed for production of vegetable plants to be transplanted after danger of frost. Cover is suspended over support frame and hooks under bottom terrace.

SPACE SAVING PYRAMID®

can be used in these interesting sales producing ways

STRAWBERRY GARDEN

We recommend planting 50 ever-bearing Strawberry plants . . . especially the top-quality Red Rich everbearing.

VEGETABLE GARDEN

A wide choice of vegetables can be planted to make an attractive garden. Tomato bed in top terrace for late production.

FLOWERING PYRAMID

When planted with annual flowers you produce an attractive garden centerpiece with the Pyramid Terraced Garden. We recommend annuals such as Petunias, Snapdragons, Marigolds, Pansies, Zinnias, Ageratum and Geraniums. Bloom all summer long.
